

Listing of Claims

1-16. (Cancelled)

17. (Original) A method of securing work articles removed from a lockable cabinet and placed on a rolling cart at a work station without returning the articles to the cabinet, comprising:
providing on the outside of the cabinet an open-bottom locker with a side-access doorway at the bottom closable by a lockable door,
opening the door,
rolling the cart with the work articles thereon into the locker through the doorway, and
then
closing and locking the door.

18. (Original) The method of claim 17, and further comprising opening the door and removing the cart with the articles thereon so that work can be resumed with the articles undisturbed.

19. (Original) The method of claim 17, and further comprising providing rollers on the cabinet and moving the cabinet when the cart is in the locker so that the cart follows the cabinet.

20. (Original) The method of claim 17, and further comprising providing a retractable shelf in the cabinet and a storing a device on the shelf and retracting the shelf the with device thereon when the door is open.

21-22. (Cancelled)
